1. Claims 1-43 are pending.

***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claim 1 provides for the use of - a frequency division multiple access method, - an registration data broadcasting method, - RF output power control method, - fail-safe file system management method; but, since the claim does not set forth any steps involved in the method/process, it is unclear what method/process applicant is intending to encompass. A claim is indefinite where it merely recites a use without any active, positive steps delimiting how this use is actually practiced.

Claim 1 is rejected under 35 U.S.C. 101 because the claimed recitation of a use, without setting forth any steps involved in the process, results in an improper definition of a process, i.e., results in a claim which is not a proper process claim under 35 U.S.C. 101. See for example *Ex parte Dunki*, 153 USPQ 678 (Bd.App. 1967) and *Clinical Products, Ltd. v. Brenner*, 255 F. Supp. 131, 149 USPQ 475 (D.D.C. 1966).

***Claim Objections***

4. Claim 1 is objected to because of the following informalities: " a special communicative method, comprising protocol...with ad-hoc network abilities (hereinafter **CYRF** protocol);-a special communicative method, comprising protocol.....communications (GLOBAL MESSAGING TRANSPORT) (hereinafter **GMT**).  
". Appropriate correction is required.

***Claim Objections***

5. Claim 34 is objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim "a method of claims 32 and 33". See MPEP § 608.01(n). Accordingly, the claim 25 not been further treated on the merits.

***Claim Objections***

6. Claim 42 is objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. **"A method of a.m. claims,** wherein as data processing means are represented by computers".

7. Claim 43 is objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. **"A method of a.m. claims,** wherein as data processing means are represented by RF transceivers".
